

ICE SLUSH MACHINE

Major Operating Theatre

FOR ORGAN TRANSPLANT USE

CAT NO: ISF - 17A

Key Features

1. Gives soft deep freeze slush ice.
2. Gentle on delicate tissues.
3. High medical grade stainless steel basin with auto-mode.
4. Strong and soft sterile drape.
5. 4 large castor wheels with lock.
6. Emergency button.

Specifications

| | |
|--------------------|---|
| Dimensions | : Height - 91cm Width - 55.5cm Depth - 42cm |
| Power | : 220-230V, 6A, 50/60Hz |
| Temperature Range | : -34°C to 0°C |
| Refrigeration Unit | : 750btu/hr |
| Refrigerant | : R404 |
| High Side Pressure | : 350psi |
| Low Side Pressure | : 150psi |
| Cooling | : Air |
| Capacity | : 8 Litres |

* Specification subject to changes.

CAT NO: ISF - 17A

1. Stainless Steel Slush Basin

- High Medical grade stainless steel 8L basin.

2. Auto mode

- Automatically stirs and creates velvet-soft slush.

3. Sterile Drape

- Strong, durable, soft drape.

4. Power On/Off and Auto Mode Controls

- Easily controlled within the sterile field.

5. Quiet Operation

- Less disruption to operating room staff.

6. Anti-static Castor wheels with lock

- Mobile with 4 large anti-static castor wheels.
- Safety lock to minimize inadvertent movement.

7. Emergency Cut-off Button

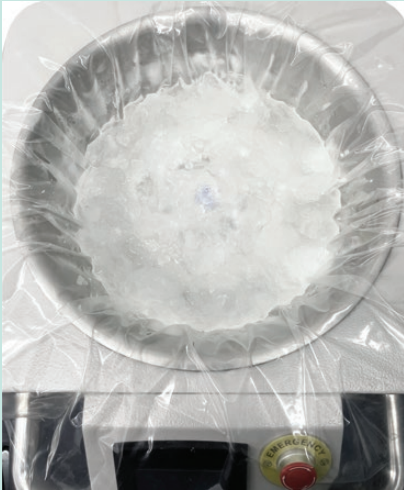

- Safety mechanism used to shut off machinery in an emergency.

8. Temperature Display

- Monitor the temperature output.

9. Energy Efficient

- Power cut-off upon reaching the correct temperature.

Minimize the Risk of Trauma to delicate tissues

- Produces a high quality velvet-soft surgical slush.
- Reduces the likelihood of damaging tissue due to large or sharp ice particles.

Save Valuable Nursing Time

- Stirring device inside the basin automatically stirs the fluid as it cools.
- Produces soft slush easily and efficiently to save nursing time.

Easy to Operate and Maintain

- Controls are simple and easily operated by the nurse in the sterile field.
- Does not require an alcohol transfer medium like other slush systems.
- Quiet system does not disrupt the operating room environment.

ISF-17A ICE SLUSH MACHINE (AUTO)

| Equipment Model | Basin Capacity | Dimensions | Fluid Level |
|-----------------|------------------|----------------------------|---------------|
| ISF-17A | 8 Litres (Round) | 91(H) x 55.5(W) x 42(D) cm | 1 to 4 Litres |
| Sterile Drapes | Description | Dimensions | Case Qty |
| ISF-17-4848 | Sterile Drape | 50" x 50" | 12pcs |
